**Reference No 3124**

Ladie's automatic with day and date, cal. 7 3/4" ETA 2678, 28800 vibrations, 17 jewels, incabloc shockprotected, glucydur balance, case waterproof, dials assorted.

**This basis model is available in following variations:**

**3124 ASC**

All steel case treated with hard chrome at 1000° V hardness, mineral tempered glass, dials with applics or with simili-stones.

**3124 ASCD**

All steel case treated with hard chrome at 1000° V hardness, mineral tempered glass with inside printed minute-cercle.

**3124 AYC**

All steel case treated with hard chrome at 1000° V hardness, scratchproof sapphire crystal cutted, dials with applics or simili-stones.

**3124 AHY**

White scratchproof case of 1400° V hardness, scratchproof sapphire crystal cutted, dials with applics or simili-stones.

**3124 OPS**

Case gold plated 20 microns, mineral tempered glass, dials with applics or with simili-stones.

**3124 OPSD**

Case gold plated 20 microns, mineral tempered glass with inside printed minute-cercle.

**3124 OPY**

Case gold plated 20 microns, scratchproof sapphire crystal cutted, dials with applics or with simili-stones.

**3124 OHY**

Yellow scratchproof case of 1400° V hardness, scratchproof sapphire crystal cutted, dials with applics or simili-stones.

**Reference No 76294**

Ladie's automatic with day and date, cal. 7 3/4" ETA 2678, 28800 vibrations, 17 jewels, incabloc shockprotected, glucydur balance, case waterproof, dials assorted.

**This basis model is available in following variations:**

**76294 ASC**

Case hard chromed at 1000° V hardness, mineral tempered glass, dials with applics or with simili-stones.

**76294 ASCD**

Case hard chromed at 1000° V hardness, mineral tempered glass with inside printed minute-cercle.

**76294 AYC**

Case hard chromed at 1000° V hardness, scratchproof sapphire crystal cutted, dials with applics or simili-stones.

**76294 OPS**

Case gold plated 20 microns, mineral tempered glass, dials with applics or simili stones.

**76294 OPSD**

Case gold plated 20 microns, mineral tempered glass with inside printed minute-cercle.

**76294 OPY**

Case gold plated 20 microns, scratchproof sapphire crystal cutted, dials with applics or with simili-stones.

**Reference No 1529**

Ladie's automatic with calendar, cal. 7 3/4" ETA 2671, 28800 vibrations, 17 jewels, incabloc shockprotected, glucydur balance, case waterproof, dials assorted.

**This basis model is available in following variations:**

**1529 ASC**

All steel case treated with hard chrome at 1000<sup>D</sup> V hardness, mineral tempered glass, dials with applics or simili-stones.

**1529 ASCD**

All steel case treated with hard chrome at 1000<sup>D</sup> V hardness, mineral tempered glass with inside printed minute-cercle.

**1529 AYC**

All steel case treated with hard chrome at 1000<sup>D</sup> V hardness, scratchproof sapphire crystal cutted, dials with applics or simili-stones.

**1529 OPS**

Case gold plated 20 microns, mineral tempered glass, dials with applics or simili-stones.

**1529 OPSD**

Case gold plated 20 microns, mineral tempered glass with inside printed minute-cercle.

**1529 OPY**

Case gold plated 20 microns, scratchproof sapphire crystal cutted, dials with applics or simili-stones.

**Reference No 7529**

Ladie's automatic with calendar,  
Cal. 7 3/4" ETA 2671, 28800 vibrations,  
17 jewels, incabloc shockprotected,  
glucydur balance, case waterproof, dials  
assorted.

**This basis model is available in following  
variations:**

**7529 OPSFZ**

Case gold plated 20 microns, down-coloured  
decor, coloured and tempered mineral glass  
with inside printed indexes.

**7529 NSFZ**

Case Nisen (white) plated, down-coloured  
decor, coloured and tempered mineral  
glass with inside printed indexes.

**Reference No 4124**

Men's automatic with day and date, cal. 11 1/2' ETA 2836, 28800 vibrations, 17 jewels, incabloc shockprotected, glucydur balance, case waterproof, dials assorted.

**This basis model is available in following variations:**

**4124 ASC**

All steel case treated with hard chrome at 1000° V hardness, mineral tempered glass, dials with applics or simili-stones.

**4124 ASCD**

All steel case treated with hard chrome at 1000° V hardness, mineral tempered glass with inside printed minute-cercle.

**4124 AYC**

All steel case treated with hard chrome at 1000° V hardness, scratchproof sapphire crystal cutted, dials with applics or simili-stones.

**4124 OPS**

Case gold plated 20 microns, mineral tempered glass, dials with applics or simili-stones.

**4124 OPSD**

Case gold plated 20 microns, mineral tempered glass with inside printed minute-cercle.

**4124 OPY**

Case gold plated 20 microns, scratchproof sapphire crystal cutted, dials with applics or simili-stones.

**Reference 7624**

Men's automatic with day and date, cal. 11 1/2" ETA 2836, 28800 vibrations, 17 jewels, incabloc shockprotected, glucydur balance, case waterproof, dials assorted.

This basis model is available in following variations:

**7624 ASC**

All steel case treated with hard chrome at 1000° V hardness, mineral tempered glass, dials with applics.

**7624 AYC**

All steel case treated with hard chrome at 1000° V hardness, scratchproof sapphire crystal cutted, dials with applics.

**7624 AHY**

White scratchproof case of 1400° V hardness, scratchproof sapphire crystal cutted, Titanium dials with applics. Integrated steel inox wristlet.

**References No 1624 or 7724**

Men's automatic with day and date, cal. 11 1/2" ETA 2836, 28.800 vibrations, 17 jewels, incabloc shockprotected, glycydur balance, case waterproof, dials assorted

**This basic model is available in following variations:**

**1624 ASC**

All steel case treated with hard chrome at 1000° V hardness, mineral tempered glass, dials with applcs or simili-stones.

**1624 ASCD**

All steel case treated with hard chrome at 1000° V hardness, mineral tempered glass with inside printed minute-circle.

**1624 AYC**

All steel case treated with hard chrome at 1000° V hardness, scratchproof sapphire crystal cutted, dials with applics or simili-stones

**1624 OPS**

Case gold plated 20 microns, mineral tempered glass, dials with applics or simili-stones.

**1624 OPSD**

Case gold plated 20 microns, mineral tempered glass with inside printed minute-circle.

**1624 OPY**

Case gold plated 20 microns, scratchproof sapphire crystal cutted, dials with applics or simili-stones.

**7724 AHY**

White scratchproof case's cape of 1400° V hardness, under part in steel inox hard chromed at 1000° V hardness, scratch proof sapphire crystal cutted, dials with applics or simili-stones.

**7724 AHYJ**

White scratchproof case's cape of 1400° V hardness, under part in steel inox gold plated 20 microns, scratchproof sapphire crystal cutted, dials with applics or simili-stones.

**7724 AHYN**

White scratchproof case's cape of 1400° V hardness, under part in steel inox black chromed, scratchproof sapphire crystal cutted, dials with applics or simili-stones

**7724 OHYC**

Yellow scratchproof case's cape of 1400° V hardness, under part in steel inox hard chromed at 1000° V hardness, scratch proof sapphire crystal cutted, dials with applics or simili-stones.

**7724 OHYN**

Yellow scratchproof case's cape of 1400° V hardness, under part in steel inox black chromed, scratchproof sapphire crystal cutted, dials with applics or simili-stones.

**7724 OHYN**

Yellow scratchproof case's cape of 1400° V hardness, under part in steel inox black chromed, scratchproof sapphire crystal cutted, dials with applics or simili-stones

**Reference No 8124**

Men's automatic with day and date, cal. 11 1/2" ETA 2836, 28800 vibrations, 17 jewels, incabloc shockprotected, glucydur balance, case waterproof, dials assorted.

**This basis model is available in following variations:**

**8124 ASC**

All steel case treated with hard chrome at 1000<sup>o</sup> V hardness, mineral tempered glass, dials with applics or simili-stones.

**8124 ASCD**

All steel case treated with hard chrome at 1000<sup>o</sup> V hardness, mineral tempered glass with inside printed minute-circle.

**8124 AYC**

All steel case treated with hard chrome at 1000<sup>o</sup> V hardness, scratchproof sapphire crystal cutted, dials with applics or simili-stones

**8124 OPS**

Case gold plated 20 microns, mineral tempered glass, dials with applics or simili-stones.

**8124 OPSD**

Case gold plated 20 microns, mineral tempered glass with inside printed minute-circle.

**8124 OPY**

Case gold plated 20 microns, scratchproof sapphire crystal cutted, dials with applics or simili-stones.

**8124 OPSAC**

Case gold plated 20 microns with hard chromed plates at 12 and 6 o'clock, mineral tempered glass, dials with applics or simili-stones.

**8124 OPYAC**

Case gold plated 20 microns with hard chromed plates at 12 and 6 o'clock, scratchproof sapphire crystal cutted, dials with applics or simili-stones.

**Reference No 5124**

Men's automatic with day and date, cal. 11 1/2" ETA 2836, 28800 vibrations, 17 jewels, incabloc shockprotected, glaucydur balance, case waterproof, dials assorted.

**This basis model is available in following variations:**

**5124 OPSD**

Case gold plated 20 microns, mineral tempered glass with inside printed minute circle. Integrated gold plated 10 microns wristlet.

**5124 OPST**

Case gold plated 20 microns, mineral tempered glass, dials with applics. Integrated gold plated 10 microns wristlet.

**5124 OPYL**

Case gold plated 20 microns, scratchproof sapphire crystal cutted, dials with applics. Integrated gold plated 10 microns wristlet.

**5124 NSD**

Case Nisen (white) plated, mineral tempered glass with inside printed minute circle. Integrated steel inox wristlet.

**5124 NSL**

Case Nisen (white) plated, mineral tempered glass, dials with applics. Integrated steel inox wristlet.

**5124 NYL**

Case Nisen (white) plated, scratchproof sapphire crystal cutted, dials with applics. Integrated steel inox wristlet.

**Reference No 7124**

Men's automatic with day and date, cal. 11 1/2" E1A 2836, 28800 vibrations, 17 jewels, incabloc shockprotected, glucydur balance, case waterproof, dials assorted.

**This basis model is available in following variations:**

**7124 ASC**

All steel case treated with hard chrome at 1000° V hardness, mineral tempered glass, dials with applics or simili-stones.

**7124 ASCD**

All steel case treated with hard chrome at 1000° V hardness, mineral tempered glass with inside printed minute-circle.

**7124 AYC**

All steel case treated with hard chrome at 1000° hardness, scratchproof sapphire crystal cutted, dials with applics or simili-stones.

**7124 ASCN**

Top of case in steel inox hard chromed at 1000° V hardness, under part in steel inox black chromed, mineral tempered glass, dials with applics or simili-stones

**7124 ASCND**

Top of case in steel inox hard chromed at 1000° V hardness, under part in steel inox black chromed, mineral tempered glass with inside printed minute-circle

**7124 AYCN**

Top of case in steel inox hard chromed at 1000° V hardness, under part in steel inox black chromed, scratchproof sapphire crystal cutted, dials with applics or simili-stones.

**7124 OPS**

Case gold plated 20 microns, mineral tempered glass, dials with applics or simili-stones.

**7124 OPSD**

Case gold plated 20 microns, mineral tempered glass with inside printed minute-circle.

**7124 OPY**

Case gold plated 20 microns, scratchproof sapphire crystal cutted, dials with applics or simili-stones.

**7124 OPSN**

Top of case gold plated 20 microns, under part in steel inox black chromed, mineral tempered glass, dials with applic or simili stones.

**7124 OPSND**

Top of case gold plated 20 microns, under part in steel inox black chromed, mineral tempered glass with inside printed minute-circle.

**7124 OPYN**

Top of case gold plated 20 microns, under part in steel inox black chromed, scratchproof sapphire crystal cutted, dials with applics or simili-stones.

**7124 OPSB**

Top of case gold plated 20 microns, under part in steel inox brown chromed, mineral tempered glass, dials with applics or simili-stones.

**7124 OPSBD**

Top of case gold plated 20 microns, under part in steel inox brown chromed mineral tempered glass with inside printed minute-circle.

**7124 OPYB**

Top of case gold plated 20 microns, under part in steel inox brown chromed, scratchproof sapphire crystal cutted, dials with applics or simili-stones.

**Reference No 7730**

Men's quartz LCD digital, nat. swiss FSA  
9315, 2 functions with light, case water  
proof

This basis model is available in following  
variations:

**7730 AYC**

Case hard chromed at 11000<sup>th</sup> hardness,  
scratchproof sapphire crystal cutted and  
white metallised

**7730 OPY**

Case gold plated 20 microns, scratchproof  
sapphire crystal cutted and yellow  
metallised

**Reference No 4230**

Men's quartz LCD digital, cal. swiss ESA 9315, 7 functions with light, case waterproof.

**This basis model is available in following variations:**

**4230 ASCD**

Case hard chromed at 1000°V hardness, black metallised mineral tempered glass.

**4230 OPSD**

Case gold plated 20 microns, black metallised mineral tempered glass

**Reference No 8230**

Men's quartz LCD digital, cal. swiss ESA 9315, 7 functions with light, case waterproof.

This basis model is available in following variations:

**8230 ASCD**

Case hard chromed at 1000<sup>th</sup> V hardness, black metallised mineral tempered glass.

**8230 OPSD**

Case gold plated 20 microns, black metallised mineral tempered glass.
